

5. (Amended) The method of claim 1, wherein said step of generating a customized document includes the further steps of:

extracting a selected portion of the SOR database from the SOR database and storing the extracted portion in a computer memory workspace;

A2 visualizing the extracted portion residing in the workspace on a computer display; and

customizing an order of presentation and an output format of the visualized, extracted portion residing in the workspace.

A3 15. (Amended) The method of claim 1, wherein the SOR database includes an SOR document that defines the starting system parameters of the data warehouse.

17. (Amended) The method of claim 1, further comprising updating the SOR database including modifications to the data warehouse.

A4 18. (Amended) The method of claim 1, further comprising synchronizing the SOR document with a centralized SOR database.

19. (Amended) The method of claim 1, further comprising inputting data discovery information either manually or automatically.
